

SUMMARY DOCUMENTATION FOR THE SESTAT 2001 NSRCG PUBLIC USE FILE

SESTAT is a comprehensive and integrated system of information about the employment, educational and demographic characteristics of scientists and engineers in the United States.

This documentation provides summary information about the variables contained in an extract of the SESTAT data -- specifically a public use extract from the 2001 National Survey of Recent College Graduates.

The documentation starts with a list of variables sorted by SESTAT name. Browse through the list and left-click on a variable name to obtain summary information about the variable. A right-click followed by selecting "Back" will return you to the variable list.

You may print out individual pages or the complete set of summary documentation (about 270 pages). Additional information on these variables is contained on the SESTAT World Wide Web site (<http://sestat.nsf.gov>).

Email comments to sestat@nsf.gov.
